

The Hunting Areas

We hunt some of the finest big game areas in Montana. We hunt on the Lewis & Clark Nat'l Forest (District 415), & Flathead Nat'l Forest (District 151) in the Bob Marshall Wilderness. Our camps allow us to hunt the early bugle season as well as the general season. This gives you the flexibility to select the season and type of hunt you want. We operate under permits from the US Forest Service and the State of Montana. Our camps are located in remote and primitive areas which limits accessibility and the number of hunters. We hunt elk, mule deer, and black bear from each of these camps.

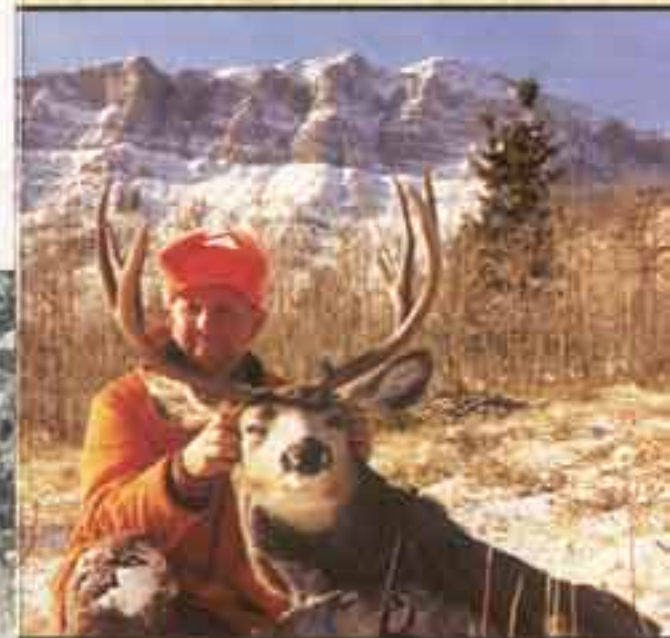

Our goal is to provide you with the high quality fair chase wilderness hunt you expect. We will give our best effort each and every time to get you the opportunity to make a clean kill on a prized big game animal. We adapt our hunting strategy and immediate location to fit your physical abilities. We do not physically push our guests to improve our kill to hunter ratio. We believe our guests are here for a memorable, top quality hunt as much as they are here to make a kill. Please call or write with any questions as we are delighted to assist you in any way we can.

A lifetime commitment to quality big game hunts and superior service.

The Camps

Our camps are well organized, clean and professional. Each camp will have a large cook tent, separate sleeping tents for guests and guides, and tents for saddles & tack. All tents are independently heated by wood stoves. Our fully guided hunts provide everything except licenses, personal effects, and your rifle & ammunition. We do provide unguided hunting camps in the same general areas in which we guide. We are confident you will find our camps well provisioned with amenities to maximize your comfort and enjoyment of the hunt. We can accommodate up to six guests in the early season camp and four guests in the late season camp. An attached list details prices for fully guided and unguided hunts. The list also details the trip packages, seasons, schedules, and recommended personal items. Unless special requests are made, we assign two hunters per guide on a guided hunt.

Personnel & Equipment

You will have a well trained and reliable mountain horse for the duration of your hunt. Gear and supplies are packed into camp on mules. We employ some of the finest guides and camp cooks available. All of our equipment is in excellent repair and well maintained.

The Hunt

This is a true wilderness hunt. We hunt by foot or by horseback. With the exception of the day in and out, we hunt all day, every day of the hunt. Most days begin before dawn by riding horses to the specific drainage that we are going to hunt and then we walk from there. We spend most of the day walking, stalking and using field glasses to spot game. We typically return after dark.
